## ON-LINE ORDERING

We all look for ways to make life easier, more instant. That's why we have blackberries, wireless internet, on-demand television, microwaves, instant porridge, Easy Mac Kraft Dinner, pudding tubes, two-in-one shampoo, pre-made Rice Krispie Treats, books with instant Bible lessons, and so on. Well we're pleased to share with you our new **"Corps Ministries On-Line Catalogue"**. Now with a few clicks you can order your supplies for children and youth ministries (and in the future other resources as well) instantly and easily.

What are the advantages of using our on-line catalogue?

- ☒ You, the customer, can now **order direct** from the distributor. You are now able to send your orders directly to the Christian education orderdesk and you will receive a confirmation email when you place the order.
- ☒ You can login and **track your order**. As items in your order are processed and shipped your account will be updated and you will be notified.
- ☒ You can **store unfinished orders**. That means you can start an order, leave it in your shopping cart, logout, check with someone else about quantities and when you log back in your order will be waiting for you to check out.
- ☒ You can **arrange to pay for your materials** by cheque or money order, or phone in credit card. If you are ordering items for personal use, you can make arrangements to prepay for the items and shipping. Then your order will come directly to you.
- ☒ You can **read a description** about corps ministries' items you are about to order. Now you can know what you are ordering before it arrives in your mailbox.
- ☒ Can't remember what you ordered last time? Now you can **review previous orders**. This will help you determine which products and how much you might need for the next time around.
- ☒ You can **add your name to the product notification list** and you will receive an email letting you know that the product is now available and ready for shipment.
- ☒ You can **subscribe to newsletters** that are issued from the on-line catalogue (this does not include or replace e-TIPS).
- ☒ You can **write a review** on a product that you have used. This allows others to see how the product has been helpful to your ministry.
- ☒ You can **search by key word** for products and find out what we have to meet that need.
